

Sheet 1

Name: Lana Hussayni  
Date: 2nd Oct 2024

Ideas

Categorise

- Identify highest fire areas
- Are any types
- Forest types
- Magnitude of fires

Filter

- ② Too simple and can be repurposed with bar chart
- ⑤ Too many points of data
- ⑧ Not enough categories

Combine & Refine

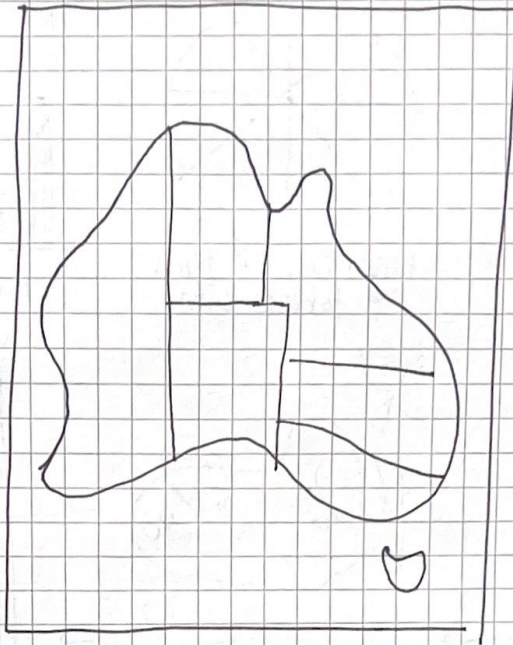

- ⑦ & ③ Combined into stacked bar chart

Questions

- Does it explore the severity of the fires?
- Is it guided properly

## Layout

## Sheet 2

Name: Lana Hussayni  
Date: 3rd Oct 2024  
Title: Dashboard

### Operations

- Drop down menu
- Filter for bubble chart

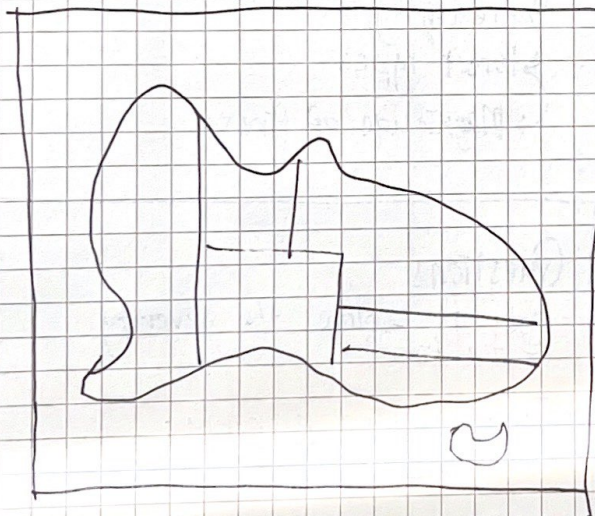

### Pros

- Simple & Neat

### Cons

- No annotations
- No guidance

## Focus

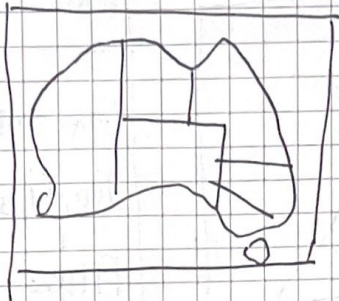

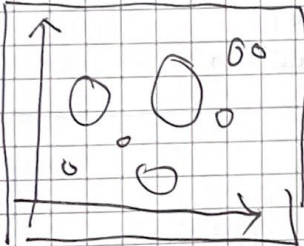

- Shows the Area of Focus

## Layout

Text
